

IEEE Thesaurus Terms Added: January 2023

3-DOF

UF 3DOF
3 degrees of freedom
BT Robot motion

5-DOF

UF 5DOF
5 degrees of freedom
BT Robot motion

Bacteriophages

UF Phages
BT Viruses (medical)

Bioprinting

BT Bioengineering
Three-dimensional printing

Bluetooth Low Energy

BT Bluetooth

Border Gateway Protocol

UF BGP
BT Protocols

Carbon neutral

BT Carbon dioxide
Carbon emissions

Chronic kidney disease

UF CKD
BT Medical conditions
Kidneys

Closed box

UF Black box
Black-box
Blackbox
BT Software
System analysis and design

Cognitive load

BT Cognition

Fifth Industrial Revolution

UF 5IR
Industrial Revolution 5.0
BT Automation
Digital transformation

Glass box

UF Glass-box
White box
White-box
BT Software
System analysis and design

High dynamic range

UF Wide dynamic range
Extended dynamic range
Expanded dynamic range
BT Dynamic range

Human activity recognition

BT Activity recognition
Human computer interaction

Hydrogels

BT Polymers

Inductive coupling

BT Mutual coupling
Circuit theory

Lumen

BT Lighting
Measurement

Microwave plasmas

BT Plasmas
Electromagnetic scattering

Mobility models

BT Mobile communication
Modeling

Non-repudiation

BT Data integrity
Access control

Proprioception

UF Proprioceptive
BT Robot sensing systems

Quantum sensing

BT Quantum mechanics
Sensors

Radiation therapy

UF Radiotherapy
BT Biomedical applications of radiation
Oncology

Self-service

UF Self service
BT Customer services
Consumer behavior

Semantic segmentation

BT Image segmentation

Sharding

BT Database systems
Distributed processing

Somatosensory

BT Physiology

Synthetic data

BT Computer simulation
Sampling methods

Threat modeling

UF Threat modelling
BT Systems modeling
Threat assessment

Trustless services

UF Trustless applications
BT Trust management

Visual information retrieval

BT Information retrieval

Zero Trust

BT Security
